You don't use Gears for other ...

Click for larger images ... were about the more average quality, the lighting around it is not great for taking photos.

Just updated some Cyberlink stuff.

Currently this morning is 1.5 GHz, 1 MB cache, 400 MHz FSB Banias/Dothan chip with 2 GB RAM, and a Radeon 7500 AF (Lush, I just ash into it) 😊 Storage is currently a 200 GB WD200BB, though will soon be a 75 GB Hitachi.
